

Glasteel® Underground Tanks (Fibreglass Jacketed Steel)

110,000 litre Single & Dual Compartment Fuel Tanks

FTS are leaders in the manufacture of Glasteel® Underground Tanks.

They are available in a range of capacities and diameters, from 2,000 – 110,000 litres.

A variety of sockets, pipes and flanges can be fitted to suit all requirements.

Suitable for Petroleum Products including those containing Ethanol & Chemicals

Glasteel® Underground Tanks (Fibreglass Jacketed Steel)

Glasteel® tanks are a steel inner primary tank with a fibreglass secondary outer jacket and an interstice between. This provides leak containment and detection as well as external corrosion control. Suitable for both pressure and suction pump systems. All tanks are manufactured to exceed AS1692, UL1316 and where applicable AS1210 for tanks with head pressure.

Options: Access manway, riser and lid, driveway cover, custom size, custom fittings

Capacities: 2,000 – 110,000 litres

Compartments: Multiple (Number Dependant On Tank Size)
